

Installation procedure 'Home'Bank Offline software (PC)

1. Download and Installation of the Home'Bank Offline software

Below you will find a description of what you have to install on your computer to work with Home'Bank Offline.

- Click the link "Home'Bank Offline for Windows*" and close everything:

> [Home'Bank Offline for Windows](#)

- Select – **Open (Run)** in the window that is displayed.
- The download will be started. (Fig. 1)

Fig. 1: Download off-line services – click 'Run' (Open)

- When the download is complete, the installation will be started up automatically. You will have to click "Next" several times and finally "Finish".

The off-line Home'Bank services are now installed on your computer.
